

Hi ladies!

As most of you know by now, we have a newly initiated group of girls making up the Lambda Class: Jaime Ellis, Sherry Li, and Maggie Mo. We are very excited that they are all first years ... They were stars during their pledge period. For their pledge event, the girls threw the sisters a fabulous chocolate party - everything chocolate themed. We had an overflowing abundance of food with chocolate in it, chocolate-based drinks and desserts, and movies about chocolate (e.g. Willy Wonka and the Chocolate Factory, Chocolat). Needless to say, we were all in a chocolate coma afterwards. For the pledge project, the girls had an inspired idea to get glass goblets with our Greek letters engraved for the sorority. We only have 4 at the moment, but it's a great start to a fantastic idea! Finally, the girls all aced their tests - all of them achieved a mark of over 90%. We are all very proud of the work the new sisters did during their pledge period, and super impressed by the fact that they have come out to many FSA events and mingled with the other Greek chapters. Here are little blurbs about the new sisters to help you get to know them a little.

Jaime Ellis (Big Sister: Kathryn Sue-Chuck - Kappa Class)

I was born on November 10, 1990 and grew up in Uxbridge Ontario. I lived in Uxbridge throughout my childhood with my mom and dad, my younger brother, and my younger sister. My interests include reading (LOTS), dancing, cheerleading, music, and travelling. I have always been actively involved in school activities such as band and coaching my high school's cheerleading team. My current program at the University of Waterloo is General Mathematics, however in the Fall I will be changing into Arts and Business. My time spent here at the University has been enjoyable so far, and since joining Sigma Lambda Gamma I have had the opportunity to enjoy many more experiences. I hope to have a fulfilling and successful University career by getting involved in activities other than just academics.

Sherry Li (Big Sister: Bailey Damm - Iota Class)

I am a first year Math and Chartered Accountancy student. I love spending time with my family and friends who are all back in Toronto, the city where I was born and raised in. Several interests of mine include arts and crafts, baking, singing and shopping. Although school keeps me quite busy, I always find time to relax and to enjoy life outside of the four walls of the Math and Computer building. I am excited to start a new chapter and I wonder where it will lead me next.

Maggie Mo (Big Sister: Joycelin Karel - Kappa Class)

My name is Maggie Mo, and I'm a 1A student in the Accounting and Financial Management Program at UW. I'm from Toronto, but so far, I love living in Waterloo. The Laurel Trail and Waterloo Park is so close to where I live -it's so convenient for me to go jogging, one of my favourite activities. I also like to swim, do pilates and yoga, and do competitive life guarding. On the other hand, I'm a total foodie - my favourite TV channel is the food network! I love to cook, watch other people cook, and eat delicious gourmet foods.

These are a great group of girls who are easy going and love to have fun. I sincerely hope you all get a chance to meet them.

Much love,

Kathryn
